RCD Develops World's Smallest Multilayer Chip Inductor - Excellent For High Frequency Designs, Wireless

Manchester, NH – April 25, 2002 – RCD Components Inc., again demonstrates superior technological leadership by offering the world's smallest surface mount inductor. RCD Components, a leading manufacturer of Resistors, Capacitors & Coils, and Delay lines has announced the release of their '0201' size surface mount chip Inductor. RCD's new chip measures only 0.022" long X 0.011" wide, one fourth the size of previously smallest available chip inductors. Designated MHI-0201 Multilayer High-frequency Inductor, it's an excellent choice for portable communications applications such as cellular phones, RF wireless, wireless remotes, wireless LANs, and wireless PCMCIA's, as well as handheld devices such as pagers, laptops, and palmtops.

This inductor development, with its small size and standard tape and reel packaging, supports the OEM who is regularly challenged by diminishing board space and increased operating frequencies. The MHI-0201 comes from RCD's line of high frequency inductors designed for the wireless/RF market, including the MHI-0402, MHI-0603, and the MHI-0805, which feature the industry's highest operating frequency levels, some models exceeding 12GHz.

RCD's MHI-0201 is available in popular inductance range from 0.6nH to 15nH, making this part readily suitable for most wireless applications.

For samples or detailed product information, contact RCD Components Inc., at 520 East Industrial Park Drive, Manchester, NH USA 03109. Phone: (603) 669-0054, Toll Free Order Hot Line: (877) RCD-COMP, Fax: (603) 669-5455. The specifications for this product may also be accessed at www.rcdcomponents.com or by dialing RCD's "Fax on Demand" service at (603) 669-0054 ext. 602. (document # 111)

Acknowledged throughout the electronic components industry for its service and engineering excellence, RCD Components Inc. is one of the world's leading manufacturers of Resistors, Capacitors, Coils, and Delay lines. RCD was founded in 1973 and is headquartered in Manchester, New Hampshire, USA. RCD continues to be one of the fastest growing passive component manufacturers due to its ABZED™ Absolute ZERo Defect guarantee, fast turnaround on non-standard products, low prices and inventory in excess of 2 billion components.
