PRESS RELEASE

RCD INTRODUCES ULTRA- PRECISION TO126 & TO220 RESISTORS TO 0.025%, 2PPM AT EDS

Manchester, NH – May 17, 2007 – RCD Components Inc., a leading manufacturer of passive electronic components, has announced today at EDS, the expansion of the popular MP Series of TO-style power film resistors. RCD's MP series has been available in wattage ratings from 10W to 145W in various through-hole and surface mount styles to 1% and 50ppm as a standard. Now RCD is introducing precision TO126 and TO220 style power resistors with tolerances as tight as 0.025% and temperature coefficients to as tight as 2ppm. This provides engineers with the ultimate space-saving power design for precision applications. Uses include precision and/or low distortion power supplies, LSI test, motor control, UPS, electronic load, high frequency amplifiers, medical power supplies and equipment, etc.

Pricing for 0.1% 5ppm parts start at under \$4.00 each with deliveries initially at 8-9 weeks, with shorter lead-times available.

For specifications or RCD's 2007 catalog, contact RCD Components Inc., at 520 East Industrial Park Drive, Manchester, NH USA 03109. Phone: (603) 669-0054, Toll Free Hot Line: (877) RCD-COMP, Fax: (603) 669-5455. Detailed product specifications are available from RCD website at www.rcdcomponents.com or by requesting specs or catalog from marketing@rcdcomponents.com.

Acknowledged throughout the electronic components industry for its service and engineering excellence, RCD Components Inc. is one of the world's leading manufacturers of Resistors, Capacitors, Coils, and Delay lines. RCD, founded in 1973, continues to be one of the fastest growing passive component manufacturers due to its ABZED™ Absolute Zero Defect guarantee, fast turnaround on non-standard products, including it's exclusive SWIFT™ service for delivery of non-standard and non-stock items in as little as 3 days, and inventory in excess of 2 billion components.
