PRESS RELEASE

RCD Components Releases “RCD InterActive®” A Specialized Passive Component Search Engine For Engineers and Technical Buyers

Manchester, NH – June 16, 2004 – RCD Components Inc., a leading manufacturer of passive components, today announced the release of its RCD InterActive®, an interactive web-based program designed to help engineers and technical buyers make faster and more informed component sourcing decisions. RCD's new program boasts 1000's of possible passive product design combinations, and is considered to be one of the industry's single most comprehensive passive component sourcing tools. Besides the basic search capabilities common among all good search engines, RCD InterActive® also allows users the option to filter their searches in ways relevant to engineers. The

number of ways an engineer can quickly and easily slice and dice through information with RCD InterActive® is refreshing to say the least. It deserves a spot in every engineer's digital toolbox.

RCD InterActive® is a specialized search engine and on-line destination for engineers and technical buyers who source passive components. Designed by engineers for engineers, RCD Components understands the searching requirements of a technical audience. RCD InterActive® is an innovative on-line passive component sourcing program that makes component searches much more accurate and efficient.

RCD InterActive® is available at no charge from their web site www.rcdcomponents.com or request a CD version of this program by calling 1.877.RCD-COMP (723.2667).

Acknowledged throughout the electronic components industry for its service and engineering excellence, RCD Components Inc. is one of the world's leading manufacturers of Resistors, Capacitors, Coils, and Delay lines. RCD was founded in 1973 and is headquartered in Manchester New Hampshire, USA, with plants in Europe, the Caribbean, and the Far East. RCD continues to be one of the fastest growing passive component manufacturers due to its ABZED™ Absolute ZERo Defect guarantee, fast turnaround on non-standard products, and inventory in excess of 2 billion components.
